github.com/Syengo1

Impact-driven Data Scientist & Engineer with a unique ability to bridge the gap between complex statistical modeling and production-grade web applications. Skilled in building scalable SaaS platforms using Next.js and deploying Computer Vision pipelines for real-world analysis.

CORE COMPETENCIES

Data Intelligence

Python (Pandas, NumPy, Scikit-learn)
Computer Vision (YOLOv8, OpenCV)
Predictive Modeling & Time-Series
Data Visualization (Tableau, D3.js)

Full-Stack Engineering

React / Next.js 14 (App Router)
TypeScript / Node.js API Design
Database Architecture (PostgreSQL/Supabase)
State Management (Zustand, Redux)

DevOps & Infrastructure

CI/CD Pipelines (GitHub Actions)
Docker Containerization
Cloud Deployment (Vercel, AWS EC2)
Payment Integration (Daraja API)

Personal Projects

Project Nostro | Full Stack Restaurant Management Web App

2025

- Architected** a full-stack management system for a restaurant, including a staff panel **99%**.
- Integrated M-PESA Daraja API** to enable real-time mobile payments and automated transaction reconciliation. (Not in the deployed version)
- Engineered** an analytics dashboard to showcase orders, live reviews among others.

Driveflow | Car Rental System (Not yet Deployed)

2025

- Developed** a real-time car rental system using **Next.js, supabase** and integrated SmileId and Daraja.
- Engineered** a full admin control panel, to post their fleets, maintain them and run their business from their phone.

Professional Experience

IT Support Intern

The National Treasury | 2024

- Orchestrated** the secure migration of sensitive financial datasets, achieving **100% data integrity** during the transition.
- Deployed** robust cybersecurity protocols across department workstations, mitigating potential malware threats.
- Streamlined hardware maintenance schedules, resulting in a **20% reduction** in system downtime.

Volunteer

Tuwakuze Africa | 2022

- Designed** high-impact visual assets using Adobe Illustrator, contributing to a **30% increase** in event turnout.

Education

BSc. Data Science & Analytics

JKUAT

Graduated: Dec 5, 2025
